

A whole new standard
ULTRAFLEX
NEW!
 in cutting and grinding performance

CGW... We know how to do it better!

ULTRAFLEX

- 40% longer life
- Faster, higher quality cuts
- Quicker, easier stock removal
- Conforms to the strictest quality & safety standards

CGW Ultraflex: defining a new benchmark in cutting and grinding performance.

CGW's Ultraflex line is produced using a winning combination of top-quality raw materials and innovative technology - developed by the CGW technical R & D team.

CGW Ultraflex is the result of our ongoing dialogue with our customers, and our determination to meet their changing needs and demands for products that are:

- Safer
- Suited to a wide range of applications
- Convenient to work with
- Easier on machines, leading to longer machine life and above all,
- Cost effective, with significant savings for the customer

CGW's new Ultraflex is a flexible line of products, facilitating the addition of new items and improvements by customer demand. Our investment in technology, research and product quality have placed CGW at the forefront of abrasives manufacturing, enabling us to market our products worldwide.

CGW's Ultraflex, like all our products, conforms to the strictest quality and safety standards.
